Introduction

We are pleased to introduce ourselves as an **HVAC & Refrigeration Service Provider** registered in Pakistan since 2022. Our principal activity are Split ACs, Refrigeration and we provide services in all areas of HVAC works; domestic, commercial, and industrial installations and maintenance.

At M-Tech, we have built our business around understanding our customer's needs & expectations, in order to deliver quality HVAC solutions which perform and protect each and every time. Our no compromise approach to our work shows in the finished product. From commercial and retail fit-outs to residential buildings and industries, each project is treated the same. Experienced project managers, qualified Technician and office-based support staff ensures that your contract is completed successfully. We owe our success to our customers who have patronized our services with confidence and trust. We believe strongly in providing quality service on time and within budget while maintaining safety and cooperating with those involved. An emphasis on Quality Control and Customer Service ensures that a large portion of our work comes from a number of clients who come back to use our services time and time again. And most of our new contacts approach us as a result of personal recommendations.

Please find attached documentation details pertaining to the execution of various jobs in the past few years.

Yours truly
Mufaddal Ali
(Proprietor)

--Our Mission--

Our mission is to establish long-term, mutually rewarding relationships with each of our valued clients by consistently surpassing their expectations and gaining their trust through exemplary and dedicated performance by every member of the M-Tech Team.

--Our Vision--

To be the region's most professional and respected commercial HVAC contractor/HVAC service provider. We understand that our clients appreciate the focus on preventative & proactive maintenance and the resulting peace of mind that comes from working with us.

Our Word is Our Promise

--Our core values--

We cherish five core values:

Customer Focus

We concentrate our efforts towards a better and long-term relation with our clients, and ensure to build a trust-based relationship with them.

Service

We strive to ensure excellent service in all what we do and we do it with honesty, integrity and professionalism.

Competitive

M-Tech operates a competitive business offering customers an HVAC Services at a price that can assure customer satisfaction while still providing a reasonable profit from operations for M-Tech.

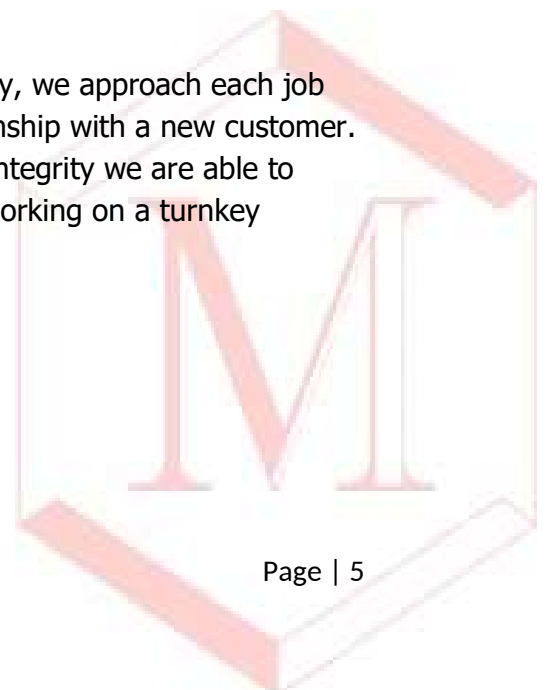

Teamwork

We value collaboration and team contribution, encourage creativity, initiatives and new solutions, and align to the utmost result exceeding success.

Commitment

We are monitoring every project thoroughly from beginning to end. We are having energy to ignite others to perform. Our team makes sure that we are treating our colleagues, customers, suppliers, and community with integrity, respect and empathy.

M-Tech's future depends on repeat business. Consequently, we approach each job with the intention that it is the beginning of a long relationship with a new customer. By emphasizing responsiveness, dependable service and integrity we are able to provide cost-effective value whether on a service call or working on a turnkey project.

--The workforce behind M-Tech--

Our team brings together many specialists to solve your HVAC needs. Their integrated technical knowledge and field experience provide you with a total HVAC service during budgeting, design and construction throughout the life of your operation. That service goal characterizes all aspects of M-Tech including a commitment to providing superior HVAC services at a reasonable cost.

-- Our Valuable Clients --

-Health & Safety Policy-

Our employees are of paramount importance.

M-Tech recognizes that the talent and energy of all its employees are its most valuable assets.

Their safety and health demand the same degree of attention and emphasis as that placed on our mainstream activity which encompasses quality, proficiency, and efficiency, environmental and financial awareness. We also recognize our responsibilities for the health and safety of others that may be affected by our activities. It is our aim to achieve a working environment, which is free of work-related accidents and ill health, and to this end we will pursue continuous improvements from year to year.

M-Tech recognizes the importance of a safe work environment through the following:

Identifying hazards in the work place, assessing the risks related to them and implementing appropriate preventive and protective measures

Providing and maintaining safe plant and work equipment

Establishing and enforcing safe methods of work

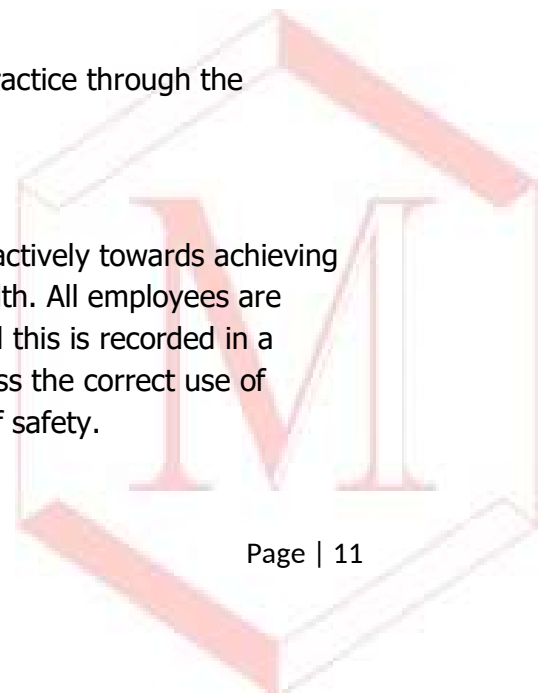

Ensuring that tasks given to employees are within their skills, knowledge and the ability to perform

Ensuring that technical competence is maintained through the provision of refresher training as appropriate

Promoting awareness of Health and Safety and of good practice through the effective communication of the relevant information

Furnishing the resources needed to meet these objectives

All employees on their part are encouraged to contribute actively towards achieving a work environment, which is free of accidents and ill health. All employees are issued with all relevant personal protective equipment and this is recorded in a register. Seminars and lectures are held regularly to discuss the correct use of personal protective equipment, as well as other aspects of safety.

M-Tech demands all site employees have current training/testing in the necessary First Aid/C.P.R., Hilti and hearing tests. Job Foremen ensure all new employees to a site are fully trained on the tools involved and acquainted with on-site safety and reporting procedures.

The company provides, at no cost to the employee, specialized safety equipment, such as hard hats, safety glasses, hearing protection, safety gloves, fall protection equipment, respirators and high voltage safety gear.

Our Health and Safety Policy will be reviewed annually to monitor its effectiveness and to ensure that it reflects changing needs and circumstances.

The Best Protection is Prevention
