## OUR EXCLUSIVES

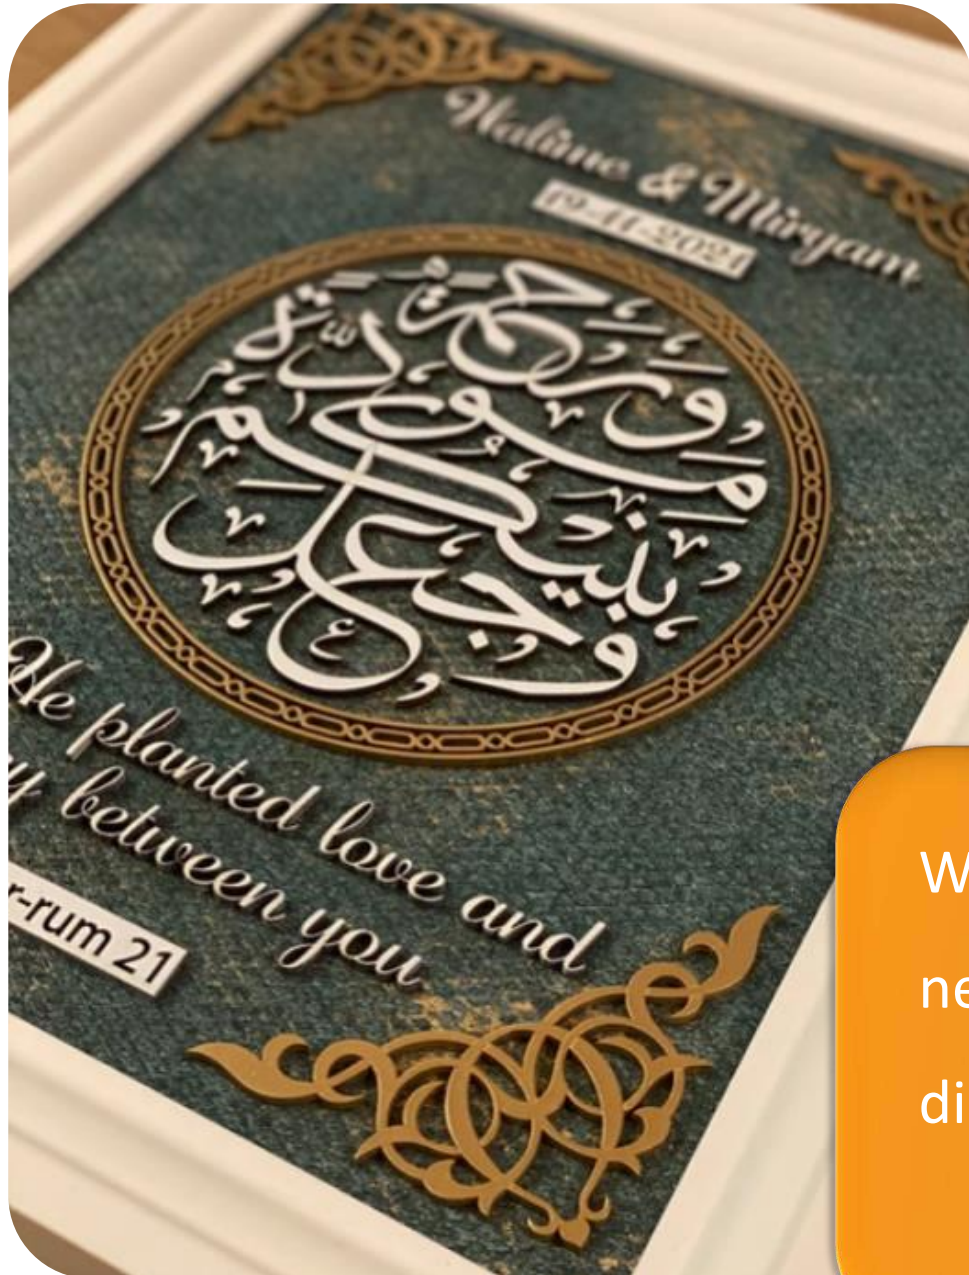

### Tazhib Art

I am inspired by the Islamic Illumination , each design has its own story in history. Illumination “tazhib” is the art of decorating various works by using gold and various earth-based paints.

Each piece is made of several layers of wood and layered with “ 24k Gold Waraq” separately, using the finest materials.

We also make customized art for companies, weddings, new birth, children and couples names. We can also discuss any ideas to be designed and created!

## OUR STORY

It all started with a hobby and my love for wood designing and the fascinating words in the Quran, that encouraged me to start professionally. Each piece of art is written in Islamic calligraphy which is the artistic practice of handwriting and calligraphy in Arabic language.

THANK YOU
