

SKYLINE CORPORATION

COMPETENCE IN HYDRAULICS

PRODUCT CATALOG

COMPANY OVERVIEW

We are pleased to introduce our organization SKYLINE CORPORATION as hydraulic equipment, spares & accessories dealers in **Hyderabad, India.**

At Skyline Corporation, we also design and produce hydraulic systems/power packs and Cylinders for varied applications. We ensure that our customers are given all the necessary support and after sales service. Besides representing these quality products, We also undertake maintenance projects and hydraulic cylinder servicing which helps our customers to ensure smooth production and extend the life of their equipment.

We assure you our best competitive rates, strict delivery period and genuineness of the products at all times.

Our motto is to "**Provide best in class products at affordable prices**".

BRANDS WE DEAL IN

YUKEN

PRODUCT CATEGORIES

HYDRAULIC POWERPACKS

Various sizes and combinations

MOTORIZED | BATTERY | ENGINE OPERATED

HYDRAULIC CYLINDERS

Various sizes and custom designs

SINGLE | DOUBLE ACTING
ROUND | TIE ROD BODY DESIGN

HYDRAULIC VALVES

Pilot | Solenoid | Manual operated

YUKEN | POLYHYDRON | REXROTH
ATOS | TORQUE

PRODUCT CODE: #876545

FILTERS AND BREATHERS

Suction | InLine | Return Line Filters

HYDROLINE | PARKER | STAUFF

PRODUCT CODE: #876545

MANUAL VALVES

Ball Valves | Throttle Valves | Needle Valves

50 x 50 cm | Black
50 x 50 cm | Red

PRODUCT CODE: #876545

HYDRAULIC PUMPS

Gear | Vane | Piston Pumps

DOWTY | POLYHYDRON |
YUKEN | VELJAN

PRODUCT CODE: #876545

HOSES AND CONNECTORS

Various sizes and specifications

FERRUL FITTINGS | CONNECTORS |
HIGH PRESSURE FLEXIBLE HOSES

PRODUCT CODE: #876545

POWERPACK ACCESSORIES

HYDROLINE | FLUDEN |

ACCESSORIES

PRODUCT CODE: #876545

MEASURE GAUGES

MICRO | WIKA | MASS

PRESSURE GAUGES
VACUUM GAUGES
TEMPERATURE GAUGES

CUSTOMIZED POWER PACK UNITS

We manufacture Standard & Custom made Hydraulic Power pack units up to 700 bar working pressure.

Applications for Plywood Press, Deep Draw Press, Press Break, Machine Tools, Foundry Furnace, Steel Plants, Sugar Factories, Cement Plants, Textile Machineries, Plastic Injection, Molding Machines, Rolling Mills, Submarine, Shipping, Power Plant, Earth Moving Equipment's, Road Construction Machines, etc.

SPECIFICATIONS OF OUR HYDRAULIC POWERPACKS :

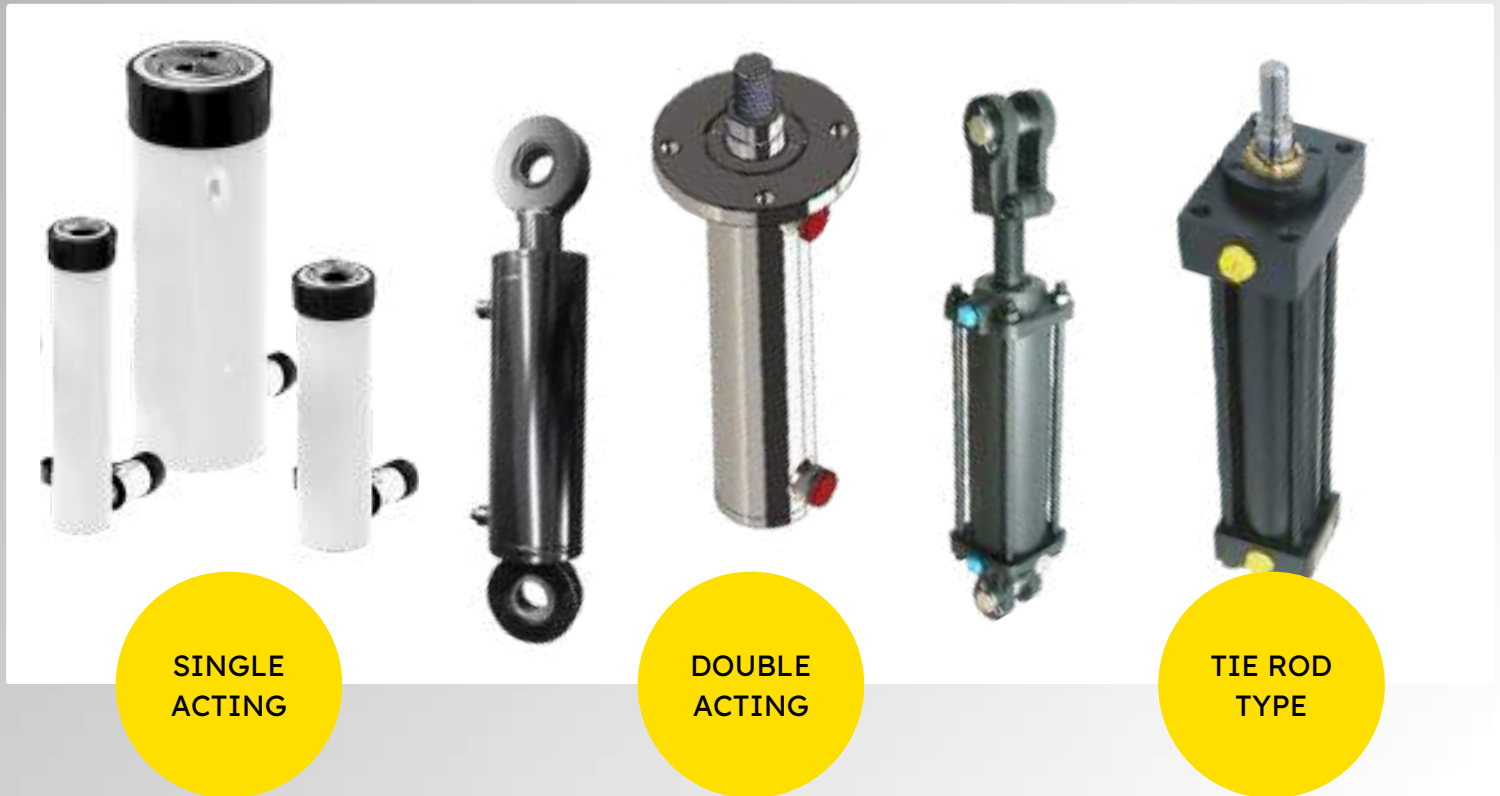

HORSE POWER: Upto 50HP

OIL TANK: Up to 1500 Litres

WORKING PRESSURE: Up to 700 Kg/cm²

NOTE: AS PER CUSTOMER REQUIRMENT

HYDRAULIC CYLINDERS/ACTUATORS

At Skyline Corporation, We offer all types of industrial hydraulic cylinders in different pressure ranges based on the requirements of our clients. These hydraulic cylinders are widely used in various aerospace industries, power plants, marine applications, agro industries and huge machinery processing industries and many more.

We offer these hydraulic cylinders in market leading prices. Skyline Corporation is one of the eminent Hydraulic Cylinder Manufacturers in India offering a selective extent of pressure driven gears to the customers. Pressure driven Cylinders are mechanical engines that are broadly utilized for making a unidirectional energy with the assistance of a stroke.

SPECIFICATIONS OF OUR HYDRAULIC CYLINDERS :

- BORE DIAMETER:** 50 mm to 1500 mm -diameter of the cylinder bore.
- STROKE:** 20000mm - The length of a stroke could be several feet, or a fraction of an inch.
- OPERATING PRESSURE:** Can manage pressure up to 700 bar.
- TEMPERATURE:** 20 to 180 degree C

HYDRAULIC VALVES

RANGE OF HYDRAULIC VALVES WE CAN OFFER:

- Directional control valves
- Proportional/ servo valves
- Flow Control valves
- Pressure valves
- Modular stack valves
- Pressure control valves
- Proportional valves
- Flow Control valves
- Modular valves
- Directional control valves
- Pressure Relief valves
- Counter Balance valves
- Pilot Check valves
- Throttle valves
- Pressure Sequence valves

SIZES AVAILABLE ACROSS BRANDS: NG6/CETOP 3 - NG25/CETOP 8

HYDRAULIC PUMPS AND MOTORS

GEAR
PUMPS

PISTON
PUMPS

VANE
PUMPS

Pumps can be offered with a wide range of pressure, flow and priority controls integrated on board and tested in simulated conditions for the actual applications and outboard bearings for Heavy-duty requirements & mountings with indirect drive. Applications include Agricultural tractors and Harvester Combines, Material Handling, Construction Equipment, Metal cutting and Metal Forming machines, Mining, Transport fan drive and power steering systems, Plastic and Rubber Molding machines, Ground support Equipment and Test rigs.

variable delivery Axial piston pumps with peak pressure rating of 350 bar and with various on board controls for use on energy efficient Mobile and Industrial applications

FILTERS BREATHERS AND ELEMENTS

FILTER
UNITS

TANK
BREATHER

FILTER
ELEMENTS

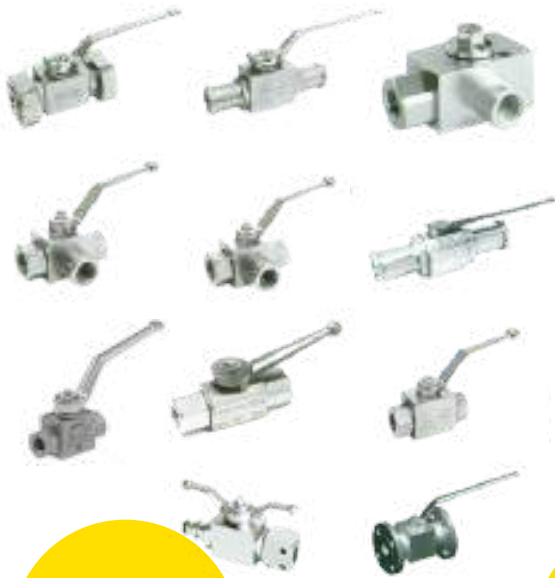

Filter housing range for installation in the full flow/main flow (pressure filters, return-line filters, intake filters) or in the partial flow of hydraulic systems, adapted to the requirements of the international markets. Complete range of replacement filter elements for own filter housings and identical to all common brands in terms of quality, function and installation.

We can offer complete range of filtration systems including:

- In-Line Filters
- Return Line Filters
- Spin-On Filters
- Suction Line Filters
- Offline Bypass filters
- Tank threaded Breathers
- Filler Breathers
- Pressurized Tank Breathers
- Desiccant Breathers
- Breather Plugs
- Replacement Filter Element
- Mesh Filters
- Moisture Separators
- Clogging Indicators

MANUAL VALVES

BALL VALVES

NEEDLE VALVES

THROTTLE VALVES

We have a wide range of catalogue with different products. Below is the complete catalogue of products: High pressure Ball valves, Throttle valves, Inline Check valves and many other models. We can provide valves for every need. We also provide hydraulic high pressure quick couplings, Monoblock and sectional lever type control valves and much more.

NON RETURN VALVES

QUICK RELEASE COUPLING

CONTROL VALVES

INDUSTRIAL HYDRAULIC SYSTEMS MAINTAINANCE AND REPAIR SERVICES

With more than 30 years experience in Handling Hydraulic Equipment and Hydraulic machinery systems, we have gained tremendous amount of knowledge in this field such that we don't find any problem or issue which cannot be fixed or resolve. Real customer service start after sales. where customer actually need service, which keep them going on to meet their personal goals.

Our Specialities in Maintenance, Repair & Service includes:

- Hydraulic cylinders reconditioning and seal kit replacement.
- Hydraulic Bottle jacks and R.C. jacks repair and reconditioning.
- Hydraulic powerpack spares and accessories replacements and installation.
- Hydraulic powerpack unit customization and upgrading services.
- Hydraulic system installation and consultancy services.
